Dear Dr. Hockett:

The 1982 Deuel Conference on Lipids will be held March 3-6 at the Highlands Inn near Carmel, California. Dr. Scott Grundy, Program Chairman, has announced a tentative program which will include:

## **TITLE: Hyperlipidemia: Pathogenesis and Treatment**

### **Hypercholesterolemia**

Low density lipoproteins: chemistry, structure and heterogeneity  
Familial hypercholesterolemia  
Polygenic hypercholesterolemia  
Treatment of hypercholesterolemia - diet therapy;  
drug therapy

### **Hypertriglyceridemia**

Chylomicronemia  
Function of lipoprotein lipase and hepatic triglyceride lipase  
Kinetics of VLDL-apo B  
Regulation of VLDL-TG synthesis  
Regulation of VLDL-TG clearance  
Drugs affecting TG metabolism  
Metabolism of VLDL remnants  
Relation of hypertriglyceridemia to HDL metabolism  
Apolipoprotein E metabolism and dysbetalipoproteinemia

Because of past support from The Council for Tobacco Research--U.S.A., Inc. for Deuel Conferences, we are informing you of the tentative program for the coming conference, and we are soliciting your support for the 1982 conference. Deuel Conference policy now is that donors of \$1000 may have the privilege of sending one representative and those contributing at least \$1500 may send two representatives to participate in the conference.

As in the past, the Deuel Conference maintains an informal atmosphere, encourages free and open discussion, and is a forum for the presentation of new and unpublished data in rapidly developing new fields of research.

For your information, I enclose a brief background of the Deuel Conferences and a copy of last year's program. We would be grateful for your early decision on support for the 1982 conference. If you are able to support the conference, please make the check payable to "The 1982 Deuel Conference" and send it to my attention at the Hormel Institute.

Sincerely,

  
Ralph T. Holman  
Chairman,  
Funding Committee
